

THE HOME. THE STREET.
THE COMMUNITY. IN A REDROW,
IT ALL FEELS LIKE HOME.

 **REDROW**

There's a reason people prefer our homes. Because with us, you don't just own a quality energy efficient home; you get a quality of life that we take great pride in.

You'll know exactly what we mean the moment you visit one of our developments. With spaces designed to enjoy together like open living areas with taller ceilings. Each bedroom is a relaxing haven, right there when you need to escape. And then, there's the outside. Beautiful landscaping. Green open spaces. And an endless mix of street scenes.

And did you know research by the HBF, based on EPC ratings, suggests that buyers of new build houses could save an average of £3,100* on their annual energy bills!

Because 'out-of-the-box' homes aren't what we do. Even better? In a Redrow community you'll always have that wonderfully welcome feeling, where people look out for one another. And so will we, because you can count on our outstanding customer service to continue long after the day you move in.

To experience all this, visit your nearest development today, and discover a better way to live.
